

YOUR BRAND TOMORROW IS OUR BUSINESS TODAY

The Company

Established back in 1993, Herti is now one of the leading European manufacturers of:

- Roll-On Pilfer Proof closures
- Plastic closures and articles
- Composite closures

The company offers almost every possible dimension of aluminum closures for clients producing:

- Spirits
- Wine
- Mineral water
- Juices
- Other beverages
- Olive oil
- Pharmaceuticals

Quality matters

The management explores new opportunities and uses latest technologies to be in compliance with the highest quality standards of the market. HL is a registered trade mark both in Bulgaria and the EU. The regular audits of the production process from key customers and partners are an additional incentive for continuous improvement and perfection.

The company is certified by:

- ISO 9001:2008
- BRC-IOP

THE COMPANY

THE COMPANY

Inspired by the customers

We work closely with our customers in the development of their products and their brands, and we collaborate with many of them to provide premium look and unique design combined with functionality and convenience.

HERTI offers numerous options for printing and finishing:

- Up to 5 colours offset printing
- Matt, Semi-matt and Glossy finish
- Hot-foil printing
- Embossing and shaving
- Relief for the plastic caps

Safety for customer's products

HERTI offers various liners according to the requirements of the customers:

- EPE Liners with different density and thickness
- Saranex
- Tin Saran
- Compounds
- Refillable and Non-refillable pourers
- Olive oil pourers
- PVC free gaskets
- Special gaskets in compliance with individual concepts

Our business is global

Closures with the HL sign are delivered in precise and constant quality to over 50 different countries worldwide. Herti has five daughter companies in the UK, France, Germany, Romania and Bulgaria. Herti is a member of SEDEX, CETIE and Closures Group in EAFA.

Protect your distilled spirits with a closure that delivers outstanding performance, tamper evidence, and aesthetics.

Herti's spirits caps protect the integrity of your brands, communicate quality, and ensure authenticity.

Our caps aesthetically protect your package and delight consumers, offering an elegant, yet easy to open and reseal solution for spirits and other related beverages.

Spirits

Herti's composite closures are designed to provide greater safety against counterfeits through a high level of tamper-evident features of the pouring system including an internal thread. It is a highly successful combination of an aluminum body with a plastic insert and allows unique decoration solutions.

- GPI

HCSC *(Herti Composite Safety Closures)*

The standard closures (also known as short or small closures), where the diameter is bigger than the height, are the most widely spread type due to their relatively low prices, cost-effective transportation and usually shorter lead time. These caps find world-wide application in various beverage industries.

- 17x12 mm
- 18x12 mm
- 22x15 mm
- 25x17 mm
- 28x14.7 mm
- 28x15,4 mm
- 28x17 mm
- 28x18 (18.3) mm
- 28x21.6 mm
- 28x22 mm
- 30x24 mm
- 31,5x18 mm
- 31,5x24 mm
- 32x18 mm
- 43x24 mm

HSC (*Herti Standard Closures*)

The deep-drawn closures are punched and drawn from the aluminium sheets in 2 steps, which gives them their name. These caps allow additional decoration, such as side printing and embossing.

- 22x30 mm
- 25x33 mm
- 28x35 mm
- 28x38 mm
- 28x42 mm
- 28x44 mm
- 30x35 mm
- 30x44 mm
- 30x46 mm
- 30x47 mm
- 31.5x40 mm
- 31.5x44 mm
- 31.5x47 mm

HDDC (Herti Deep-Drawn Closures)

Herti's Extra Long Closures are punched and drawn in 3 steps, designed for bottling wines and spirits. They offer different possibilities for decoration and hot foil printing.

- 25x43 mm
- 25x50 mm
- 28x50 mm
- 30x50 mm
- 30x55 mm
- 30x59 mm
- 30x60 mm
- 31.5x55 mm
- 31.5x60 mm
- 31.5x50 mm

HXLC (Herti Extra Long Closures)

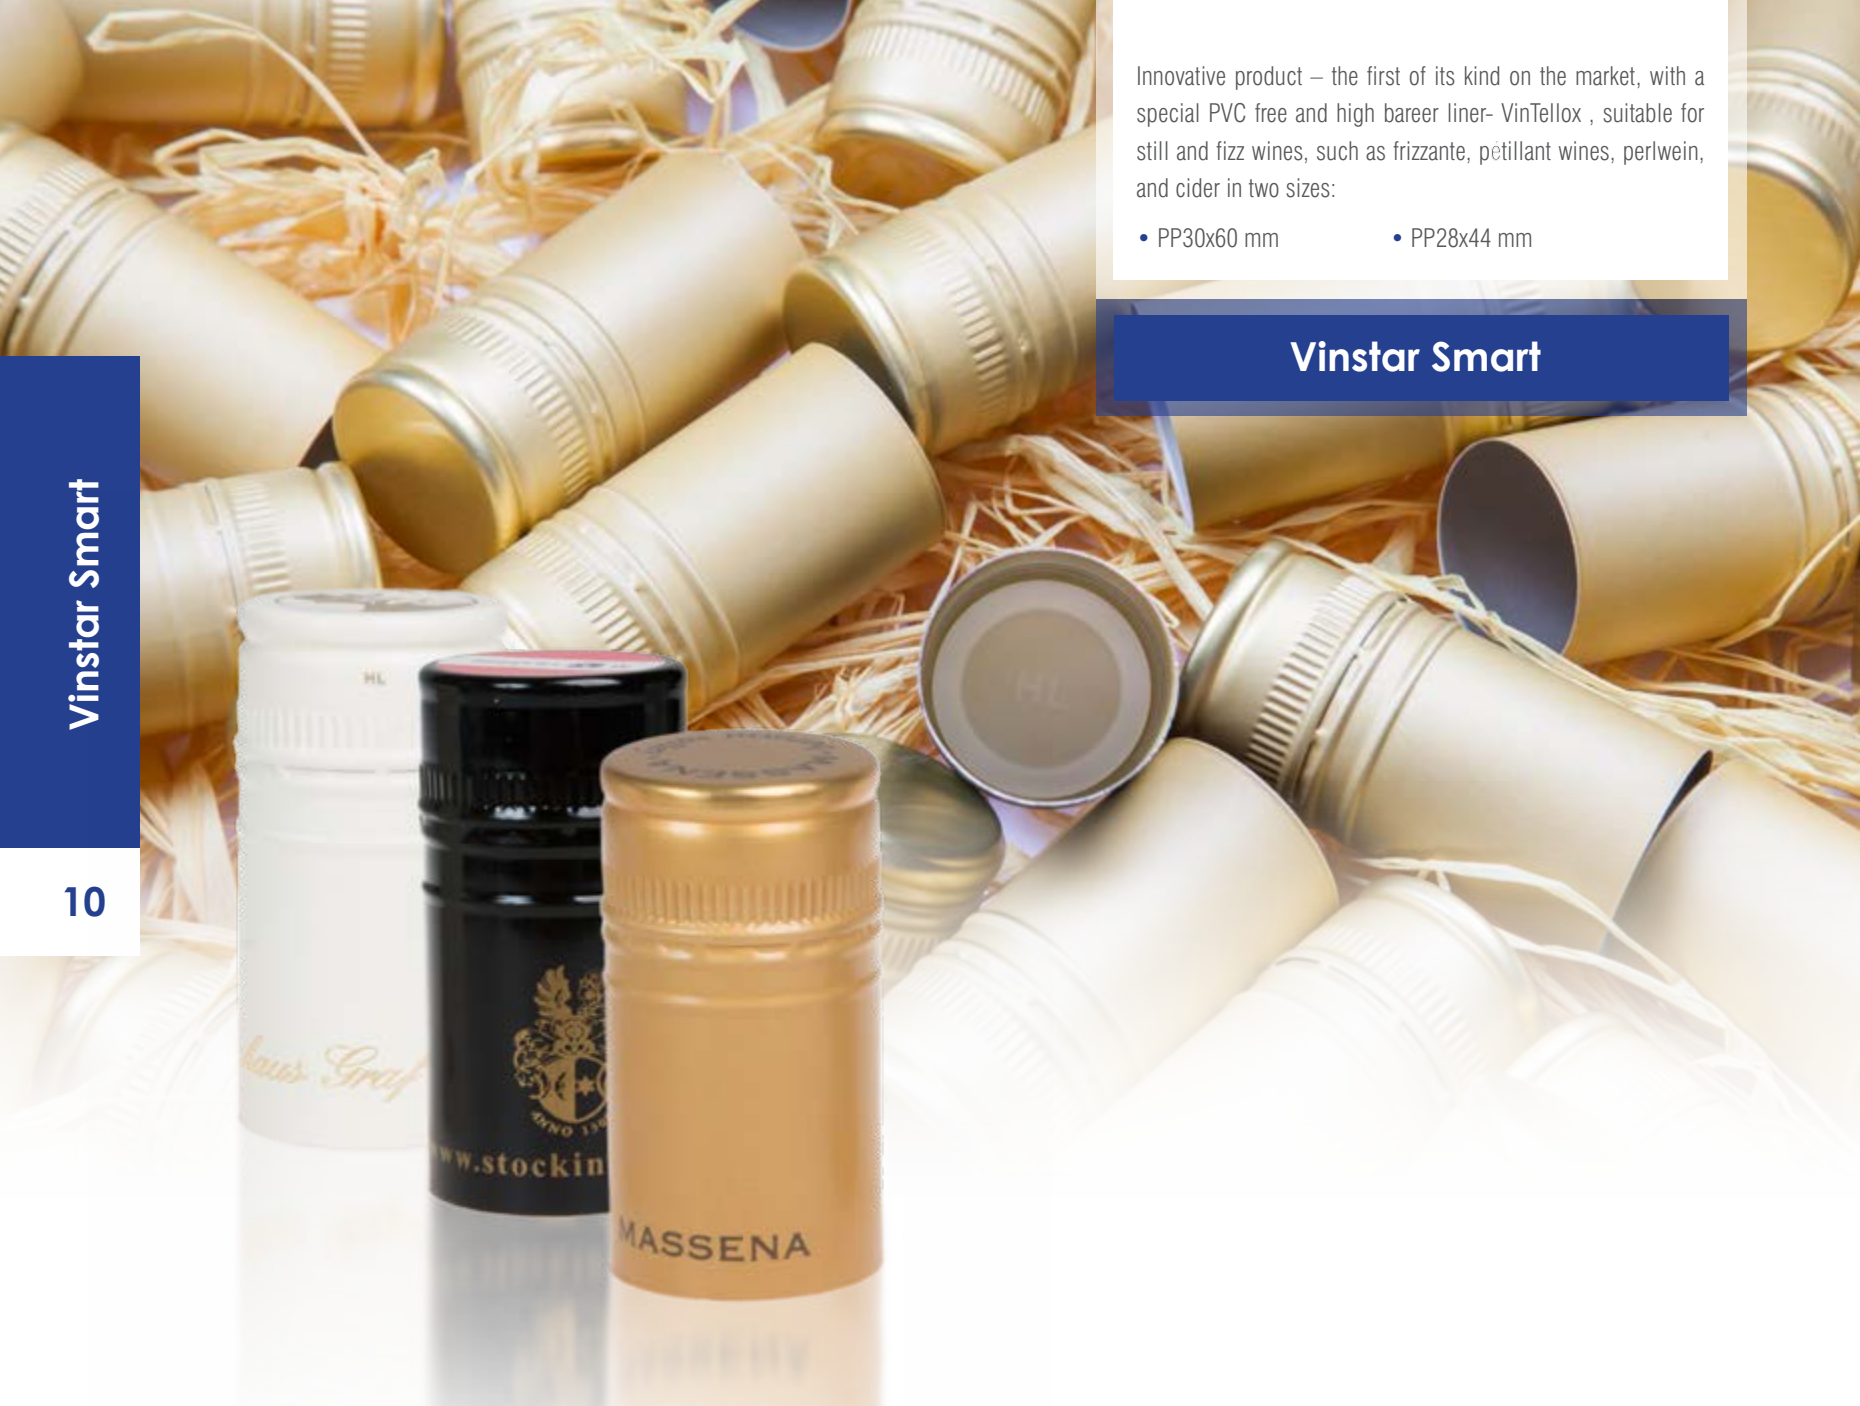

Herti's screw caps for wine guarantee the absence of 2,4,6-trichloroanisole (TCA), the main cause of cork taint. They prevent the wine from oxidizing too swiftly and allow the wine aroma to emerge only when it comes into contact with the air. These benefits contribute to the wine's overall quality and aging potential.

Wine Industry

HWDC (Herti Wine Designed Closures)

Aluminum closures represent the modern way of closing bottles and play a major part in preserving the quality of the wine, its branding and visual impact, but also wine's environmental footprint. Herti offers a number of decoration possibilities and liners, and is continually investing in innovative products that satisfy the requirements of wine producers. "Vinstar" is the trade mark under which Herti sales its wine designed aluminum closures.

Innovative product – the first of its kind on the market, with a special PVC free and high barrier liner- VinTelox , suitable for still and fizz wines, such as frizzante, pétillant wines, perlwein, and cider in two sizes:

- PP30x60 mm
- PP28x44 mm

MASSENA

All types of aluminum closures that Herti produces with SARANEX or TIN liners, can be used for wine bottling. The most popular standard closures that we offer for the wine industry are with the following dimensions:

- 22x15 mm
- 22x30 mm
- 25x17 mm
- 25x43 mm
- 28x44 mm
- 30x24 mm
- 30x60 mm

Vinstar Standard

Herti's tamper-evident aluminum and plastic caps for waters, juices and still or sparkling soft drinks allow the consumer to see, hear and feel the tamper-evident ring separation, providing maximum assurance of the integrity, authenticity and quality of the product.

For the industry Herti offers the standard 28x15.4 aluminum closure and various types of plastic caps (HPP - Herti Plastic Products) also in combination with handles. Plastic caps and articles are also used in pharmaceutical and cosmetic production.

Water, Soft drinks, Juices

You can now seal your sparkling water or pasteurizable drink with a 28x15.4 and 30x60 mm aluminum closure!

The aluminum closure with safety plastic ring is designed for capping high and middle class quality still and sparkling mineral waters in glass bottles. The compound used is PVC free which makes DORADO also suitable for ozone and sensitive waters. The closure is tamper-evident due to the plastic ring, which at the same time protects consumers from injuries.

DORADO

In the oil and olive oil sector, Herti provides a diversified range of caps, both short and long, with pourers that have been specifically designed for the viscosity of the oil, with a view to enable perfect pouring, as well as anti-drip devices to avoid the drips that could form when pouring is interrupted.

- 31.5x24 mm
- 31.5x44 mm
- 31.5x60 mm

Olive oils

Herti's pharmaceutical caps are produced with raw materials and master-batches approved for the purpose, and produced according to ISO 9001 regulations.

Our product ranges suitable for the pharmaceutical industry are developed to meet the highly varied requirements of the industry in terms of product performance, shapes and sizes.
